

Career Objective

Motivated and detail-oriented Computer Science graduate with a strong foundation in Android development using Kotlin and Java. Eager to apply my academic knowledge and project experience in building innovative, user-centric mobile applications. Looking for a full-time opportunity to contribute to impactful projects and grow as a mobile app developer.

Skills Summary

Languages	Kotlin, Java
Mobile Dev	Android SDK, XML Layouts, Jetpack Libraries
APIs & Tools	Retrofit, Firebase, Google Maps API
Databases	SQLite, RoomDatabase, Firebase, MySQL
Version Control	Git, GitHub
Architecture	MVVM, MVC
IDE & Platforms	Android Studio, Firebase Console

Education

Bachelor of Technology(B.Tech) – Computer Engineering

Jharkhand University of Technology, Ranchi

2021-25

CGPA: 7.4/10

Coursework: Data Structures, Algorithms, Software Engineering, Database Management, Web Development, Object Oriented Programming

Projects

Expense Tracker App

A simple app to record, categorize, and view daily expenses.

- Used Room for local database and MVVM for architecture.
- Added Pie Chart visualization using MPAndroidChart library.
- Created dark/light mode UI using Material Design.

Firebase Chat Application

A real-time chat app using Firebase Realtime Database and Authentication.

- Implemented one-on-one messaging, user status, and push notifications.
 - Integrated Google Sign-In and used Glide for profile images.
-

Internship

Android Developer Intern

Quiz Parlour, Patna

Nov 2024 – Feb 2025

- Developed a native Android application for quiz-taking, utilizing Java/Kotlin for front-end development.
- Integrated Retrofit for seamless API communication to fetch and submit quiz data.
- Utilized Firebase for real-time data syncing and Cloud Messaging for push notifications to user.
